LOCAL NEWS.

OUR BOARDING SCHOOLS.—There exists a prejudice in the minds of many against sending their sans and daughters to school in a city, which, in justice to several excellent boarding schools in Alexandria, we deem it necessary to emicavor to remove. In three points, country schools are thought to be preferable; health, freedom from distraction, and morality. Now, as far at least as Alexandria is concerned, it is easy to show that their objections have little force. As to health, it would be difficult to find any location in the country superior to ours, while in those cases of sudden illness or accident, to which all are liable, the best medical attendance is much more quickly accessible than is usually the case in the country. As to distractions from study, what is complained of here by people generally is a lack of proper amusements, and, while it is admitted that such amusements are more frequent in town, it is clearly within the power of the judicious teacher to restrain the indulgence in them within suitable limits; while on the other hand there are many sports peculiar to the country, which, though profitable to the boy if indulged in moderately, may become, if carried too far, detrimental to his progress. It is with respect to merals that the city is most frequently misindeed. Of course, if boys are allowed the freedom of the streets at night, there is danger; so there is in the country, if they are allowed to go and come when they please, day or night. The judicious teacher knows how to govern his charge, and while allowing proper recreation to keep them away from the enticements to evil, which abound both in town and country. It is the discipline of the school and the competency and fidelity of those in charge of it, that are to be considered in this matter, not the location. We ask, therefore, that our readers will carefully consider the whole matter before placing their children at school. Our columns contain, already, the advertisements of many excellent establishments both in and out of the city, and it would be well for them to ak into the claims of all before they decide. government and think it will be found that Alexandria has advantages as an educational centre, not to be surpassed. It is eminently healthy and moral; at is accessible at all hours of the day and night, in case of sudden illness or ascident; and it has schools second to none in the ability of its instructors and the moderadon of their charges.

THE SHEPHERD CASE .- A further investigation into the case of Jos. Shepherd, charged with an attempt to defraud three Life Insurance companies out of the amount of the policy of his brother George, by falsely swearing that said brother had been drowned in crossing the river to this city, the particulars of which have heretafore been published in the Gazette, took place at Police Headquarters this morning be-fore acting Mayor S. H. Janney, a magistrate, ex officio, and Justice W. H. May. Several witnesses were examined, one of whom swore positively to having seen the purported deceased on the 19th of July, several days after the reported drowning, in company with his brother, in this place; and the boy who rowed him over the river testified to the falling overboard, but could not see and did not know whether the man was drown. It was supposed that George Shepherd had on a life preserver and merely umped into the river for the purpose of effecting his object. Other witnesses testified as to seeing the accused in this place, after the reported drowning in company with a man anwering to the description of Geo. Shepherd.

The accused was finally committed for trial then the charge of perjury and an attempt to committee a fraud upon three Life Insurance companies, at the Quarterly term of the Corpotation Court which meets on the 13th of

At the close of the examination the accused rupleyed Col. M. D. Ball, as his counsel.

SHIP-YARD, -Mr. Wm. Adamson, of London. England, a ship-builder by trade, who purchased a farm at Greenwich, near Gainsalle, Prince William county, Va., some months just through the real estate agency of Green & Wise, was in Alexandria some weeks ago iuspecting the site of the old Hunter ship yard, and was so favorably impressed that he wrote to his brother, who is now engaged in shipbuilding in London, of the advantages Alexandua offers, and the brother, Mr. Thos. Adamleft for London a few days ago for the purpose of forming a joint stock company to engage in the business here. The Messrs. Adamson were introduced to several of our leading shipping merchants, all of whom assured them that, in their opinion, the undertaking would be a success. Capt. Boothe informed them that his company had many canal boats built elsewhere which would be built here if the facilities were dered. From the nature of the conversation letween Maj. Green and the Messrs. Adamson it is likely the yard will be again put in Meration in a short time. Parties here assured A. that a vessel to cost \$30,000 would build here as soon as the yard should be in operation. We hope the project may prove a states, as we doubt not it will, if undertaken.

Body Recovered.-The body of Byron Edent, colored, steward of the schooner R. F. Han, Capt. AN IMPORTANT MEETING .- The Potomac Baptist Association will hold its 18th annual session with the Alexandria church on the 19th of the present month. It is one of the largest District Associations in Virginia, comprising 50 churches, 22 ordained and 16 licensed ministers and nealy four thousand members. As the territory of the Association lies contiguous to our city, and there has been no meeting of the body here for many years, a large delegation is expected. Distinguished men from other parts of Virginia, will doubtless be present. It is understood the members of the church are busy preparing for entertainment, and as is customary their neighbors will no doubt aid them liberally.

PASTOR OF THE M. E. CHURCH.-The President of the Maryland Annual Conference of the Methodist Protestant Church having released Rev. T. G. Valliant, (assistant to Rev. Dr. Killgore,) in consequence of the feeble condition of his health, has appointed Rev. T. O. Crouse to fill his place, who will preach on Sunday morning, August 17th. Mr. C. comes highly recommended by the President and others, as a young man of fine abilities whose elocutionary powers are rarely excelled.

LOCAL BREVITIES.

While the inquest on the body of the colored steward of the schooner R. F. Hart was in progress, this morning, a man from down in Maine, a friend of the captain, stood anxiously by to be put upon the jury, so that he could "make a dollar," as he said up in his place that fee was allowed, and was sorry that such was not the case here. He was not put on the jury however.

The all absorbing topic of conversation in the streets to-day has been the burning of the Wa- 907 were dry goods and \$4,170,934 were genwaset, the particulars of which were given in and explain their systems of instruction and an extra from this office this morning which was eagerly sought for and read. The news of the catastrophe caused great excitement and the bereaved have the warm sympathy of the community.
